# PelGar Mouse Station

The PelGar Mouse Station, made in Alton (UK), has been designed and manufactured to give the best functionality to you at the most competitive price.

The **PelGar Mouse Station** begins and finishes its life in an environmentally friendly way, it's made from recycled plastic and is also fully recyclable in normal household waste.

The **PelGar Mouse Station** has been manufactured with security in mind in the form of a wall bracket which the bait station clips onto, and is also available with a bar on which block and paste bait can be easily secured.

Your logo here - large area for logo and baiting details, 12.5x4cm.

The **PelGar Mouse Station** has also been designed with mouse behaviour in mind. It has a textured 'non-slip' floor which gives it a more natural feel, full width openings for easy access and a small lip and drainage holes to prevent build up of water if the station is used in damp locations.

The **PelGar Mouse Station** is supplied with a glass reinforced key for extra strength and durability - the same key will also open the **PelGar Rat Station**.

# PelGar Mouse Station

When it comes to placing bait the **PelGar Mouse Station** is very versatile. The two bait reservoirs either side of the station have been sized to hold either 20g or 28g blocks, or alternatively loose bait such as grain or pellets.

As well as the wall bracket which the station clips onto, there are also two holes in the lid through which a cable tie can be threaded to affix the station to pipes or other wall fixings.

The **PelGar Mouse Station** can also be supplied with a horizontal bar on which pasta or blocks can be fixed to help prevent removal of baits from the station.

The **PelGar Mouse Station** is packed in boxes of 100 units and can be supplied with additional keys, wall brackets and horizontal bars as pictured below.

## Shipping Information

The **PelGar Mouse Station** is efficient when it comes to shipping and storage and on average will fit 20% more on a pallet. The stations are packed 54 cartons to a pallet (5400 stations) which measure a total of 120 x 106 x 214cm.
